The way we were  (Memories…🎶)

Childhood Obesity –
- “Epidemic”
- “Dramatic and disturbing trends”
- Linked to morbidity and significant diseases
- Most obese children become obese adults

Arkansas 2003
- 14th in nation
- 38.1% of children overweight or at risk
What we did …

Step 1: Enacted Legislation

- Act 1220 of 2003, 2\textsuperscript{nd} Extraordinary Session
- Child Health Advisory Committee
- Focus on physical activity, school nutrition, obesity monitoring
What we did …

Step 2: Established the Child Health Advisory Committee

Committee Members:
- State Board of Health
- Department of Education
- Physicians, nurses, dieticians, other health-related associations and professions
- Food service groups
- Teachers, parent-teacher associations, education associations
What we did …

**Step 3: Implementation**

- **Measure** BMI in schools
  - Report results to parents
  - Data collected

- **Increase** physical education and physical activity

- **Address** food service, vending machines, nutrition
Arkansas Center for Health Improvement (ACHI)

Implementation of BMI measurement
- Selected equipment
- Developed protocol
- Trained and certified school nurses
- Developed data collection and entry procedures
- Analyzes data collected; Provide annual reports
