| Room: W179b | • Assemblymember Jacqui V. Irwin, California  
• Representative Curtis M. Oda, Utah |
| 1:15-2:45 p.m. | Two Tools for Cybersecurity: Risk Assessment and Data Analytics |
| Room: W179b | As cyberattacks grow and become more sophisticated, data analytics are an important line of defense to predict, detect and prevent security threats. Learn how big data analytics are being used in the cybersecurity battle and hear about risk assessment resources available to states. |
| | Speakers: |
| | • Tom Baden, Commissioner and Chief Information Officer, Minnesota  
• Stu Bradley, Vice President of Cybersecurity Solutions, SAS, North Carolina  
• Angela Gleason, American Insurance Association, Washington, D.C. |
| 3:00-4:30 p.m. | Cybersecurity Education and Workforce Development |
| Room: W179b | Ensuring the security of state systems requires employees to have a specific skill set, background, education and training, and to update their skills to advance with the technology. This multifaceted conversation focuses on encouraging a robust network of cybersecurity education, training and workforce development. Hear how states can recruit, train, develop and retain a highly qualified workforce; and how to develop common cybersecurity language and standards in education and training. |
| | Speakers: |
| | • Senator Susan Lee, Maryland  
• Rodney Petersen, National Initiative for Cybersecurity Education, U.S. Department of Commerce, Maryland  
• Seth Robinson, Senior Director, Technology Analysis, CompTIA, Illinois  
• Captain Paul J. Tortora, USN (ret), Center for Cyber Security Studies, U.S. Naval Academy, Maryland |

<tr>
<td></td>
<td>The electric grid may be the most critical component of modern society, powering our homes and workplaces; delivering heating, cooling and fresh water; and sustaining the operation of our economy. When storms, cyber-attacks, technology failures and other incidents take down the grid, the results can be devastating for individuals, communities and state economies. This session will explore risks faced by the modern grid, the costs of power failure, and approaches for securing the grid against the most serious threats.</td>

Legislative Summit, Sessions of Interest Cont.

9:30-10:30 a.m.
Room: W185bc

Issue Session: Cybersecurity Showdown -- Challenges and Strategies for States

Cyber threats have enormous implications for government security, economic prosperity and public safety. In rapid fire blasts, learn about key cybersecurity issues and perspectives: government, financial and consumer data, water and energy threats, IT security and law enforcement challenges—all with an eye toward collaborative strategies to combat these elusive and ever evolving threats.

Moderator:
- Representative Max Tyler, Colorado

Panelists:
- Andrew Bochman, Idaho National Laboratory, Idaho
- Joe Demarest, Ernst & Young, New York
- Ashwini Jarral, IJIS Institute, Virginia

9:30 a.m.-Noon
Room: W187

Deep Dive: Welcome to the Third Wave of the Future

Economic powerhouses like Uber, Lyft and AirBnB challenged the culture and structure of prevailing business models. Now the dawn of a new technological revolution is on the horizon—the "third wave" of the internet. It will change our lives in unimaginable ways. What you'll learn: How, as the major funder of some sectors, government will be an important ally in reacting to—and shaping—the changing landscape. Why entrepreneurs will be looking at the public sector as a vital customer, not merely a regulator.

Moderator:
- Doug Robinson, NASCIO, Washington, D.C.

Panelists:
- Jim Geringer, Esri, Wyoming
- Jim Madaffer, Madaffer Enterprises, California
- Franz Paasche, PayPal, New York
- Gary Shapiro, Consumer Technology Association, Virginia

2:00-3:30 p.m.
W180

Staffing for Cybersecurity

How can government and legislative IT offices be sure they have the budget, staff and skill sets necessary to protect against ever-increasing cyber threats and balance costs versus risks? Can government compete for qualified security professionals? Which tools or practices, such as security audits, are essential?

Moderator:
- Linda Wettstone, Senate Clerk's Office, Virginia General Assembly

Panelists:
- Doug Robinson, NASCIO, Washington, D.C.
- Mike Rohrbach, Legislative Service Center, Washington

The NCSL Executive Committee Task Force on Cybersecurity will next meet during the NCSL Capitol Forum to be held in Washington, D.C., Dec. 6-9, 2016.

Please plan to attend!
