WannaCry, Petya, NotPetya: how ransomware hit the big time in 2017

Most first encountered ransomware after an outbreak shut down hospital computers and diverted ambulances this year. Is it here to stay?

Boeing Is The Latest WannaCry Ransomware Victim

The alarm bells were blaring this week at Boeing. In the early hours Wednesday morning, computers on the aerospace giant’s network were being attacked by the WannaCry virus.

Equifax Suffered a Hack Almost Five Months Earlier Than the Date It Disclosed
