5 CHALLENGES FOR LOCAL JURISDICTIONS
Awareness of the Requirement to Redistrict

... a majority of county councils in Indiana either failed to redistrict in 2011, or failed to draw districts that are nearly equal in population, ... Many school boards that were required to redistrict in 2011 also failed to do so, or did so improperly.

Differential Privacy will Affect Local Jurisdictions the Most

- reported population totals in districts comprised of rural areas are likely to be less accurate than those created in more densely populated areas.

- Household data is separated from population data, leading to some logical inconsistencies, such as households that show a population of less than one, households with children but no adults.

- areas that are known to be unpopulated that will have population assigned.
