**LET NO
CRISIS GO TO
WASTE**

That doesn't mean there is
value in creating an
unnecessary crisis

IRS and state tax agencies
begged to keep April 15

More than half of the
accounting community
opposed changing

Solution in search of a problem

Software providers, online
tax prep companies,
lobbied hard against a
change

The list of changes is depressingly long

Every reference to April 15 changed in code

Letters, notices rewritten

Taxpayer guidance reissued, assisters retrained

**What work should your
tax agency delay or
ignore?**

**YOUR
TAKEAWAY...**

(Please don't)
