

**BRITISH COLUMBIA'S PISA PERFORMANCE**

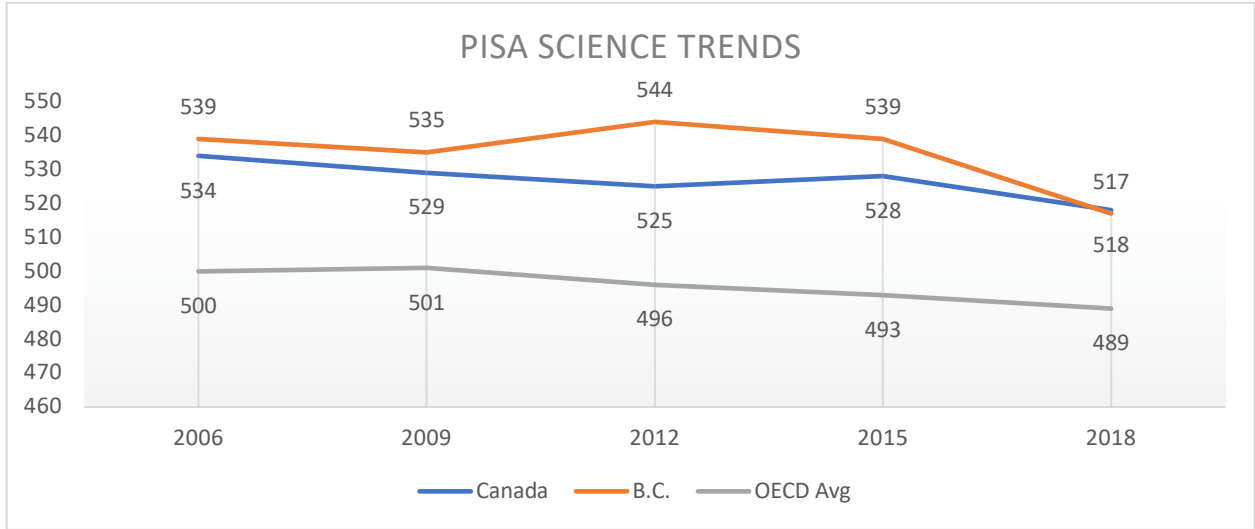

**SCORE TRENDS: 2000 – 2018**

BC's reading scores have declined significantly in the short term (since 2015) and the long term (since 2000), but they are not statistically different from 2009, when scores dipped temporarily.

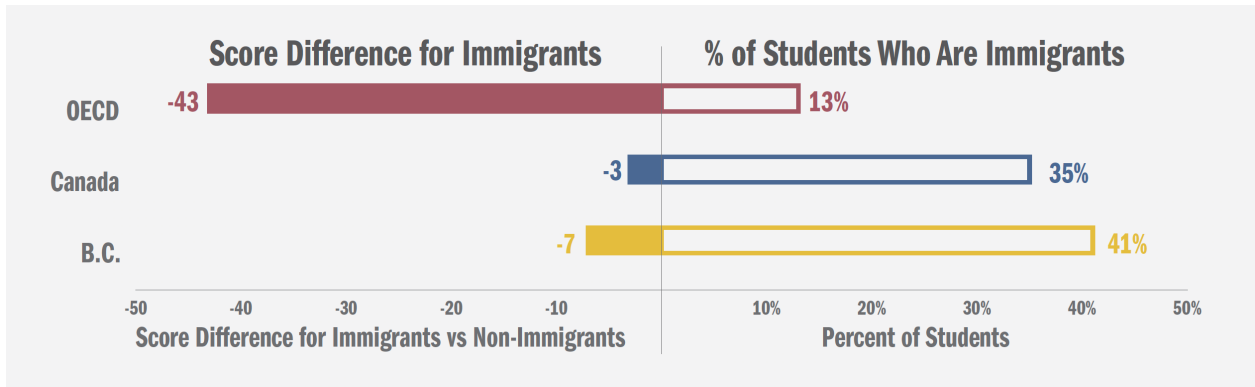

BC's mathematics scores saw a significant decline between 2003 and 2006, and then held steady until 2018, when they saw another significant decline.

BC's science scores did not see a statistically significant change between 2006 and 2015. In 2018, they saw a statistically significant decline.
