Welcome
  • Kristy Hartman and Glen Andersen, NCSL
  • Senator Eric Koch (IN) and Senator Dave Koehler (IL), Co-Chairs

Updates for the Energy Supply Task Force
  • Discuss upcoming meetings/webinars and new NCSL resources.

Energy Storage: Overview of Technology and Policy
  • This session will provide an overview on energy storage, including an overview of available technology, services that storage may provide, and where state policy make affect long-term adoption.
    o Jeremy Twitchell, energy research analyst, Pacific Northwest National Laboratory

State Policy Action on Energy Storage
  • NCSL will provide an overview of recent legislation and policy trends.

Discuss Energy Storage Report Outline
  • NCSL will briefly discuss the outline for the energy storage report.

Small Group Breakouts (facilitated by NCSL staff)
  • What questions around energy storage have arisen in your state or legislative committee?
  • What do you think the next steps will be for your legislature on this topic?
  • Are there other questions, case studies, or examples that you think should be included in the report?
  • What information is most important for legislators to know regarding energy storage?

Other Questions
  • What are the biggest energy issues facing your legislature/organization over the next year?

Wrap Up
