2020 Census Update & Redistricting Data Program

National Conference of State Legislatures
December 11, 2019

Kathleen M. Styles
Chief – Decennial Communications and Stakeholder Relations
2020 Census

A complete and accurate count of the population and housing

Count everyone once, only once, and in the right place.
Constitutional Mandate

Purpose

• To conduct a census of population and housing and disseminate the results to the President, the States, and the American People.

Primary Uses of Decennial Census Data:

• Apportion representation among states as mandated by the Constitution
• Draw congressional and state legislative districts, school districts, and voting precincts
• Distribute more than $675 billion federal dollars annually
• Inform federal, tribal, state, and local government planning
• Inform business and nonprofit organization decisions (e.g., where to locate, size of the market)
Where Are We Now

- **March-August:** Peak Field Operations for 2018 End-to-End Census Test
  - March-March: Open 39 early area census offices

- **January:**
  - March: Begin enumeration in remote Alaska

- **August-October:** In-Field Address Canvassing Operations
  - June-September: Open remaining 209 area census offices

- **February-June:** Group Quarters Operation
  - March: Internet Self-Response begins
  - April 1: Census Day
  - May: Nonresponse Follow-Up begins

- **March-July:** Self-Response Period

- **May-July:** Nonresponse Followup Operations

- **December 31:** Deliver apportionment counts to the President

- **March 31:** Complete delivering Redistricting Summary Files to all states (P.L. 94-171)

- **2018:** Open 6 regional census centers

- **2019:**
  - June: Begin in-field Address canvassing

- **2020:**
  - August: Launch advertising campaign
  - February: Group Quarters Operation begins
  - March: Update Leave begins

- **2021:**
  - May: Nonresponse Follow-Up Operations
  - March: Complete delivering Redistricting Summary Files to all states (P.L. 94-171)
Internet, Phone, or Paper

Every household will have the option of responding online, by phone, or by mail.

Every household that hasn’t already responded will receive reminders and a paper questionnaire.

<table>
<thead>
<tr>
<th>WHAT WE WILL SEND IN THE MAIL</th>
<th>You’ll receive:</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>On or between</strong></td>
<td><strong>You’ll receive:</strong></td>
</tr>
<tr>
<td>March 12–20</td>
<td>An invitation to respond online to the 2020 Census. (Some households will also receive paper questionnaires.)</td>
</tr>
<tr>
<td>March 16–24</td>
<td>A reminder letter.</td>
</tr>
<tr>
<td>March 26–April 3</td>
<td>A reminder postcard.</td>
</tr>
<tr>
<td>April 8–16</td>
<td>A reminder letter and paper questionnaire.</td>
</tr>
<tr>
<td>April 20–27</td>
<td>A final reminder postcard before we follow up in person.</td>
</tr>
</tbody>
</table>
Next:
Remote Alaska

Enumeration will begin in Toksook Bay, Alaska on January 21, 2020
Integrated Partnerships and Communications

Engage and motivate people to self-respond, preferably via the internet

Raise and keep awareness high throughout the entire 2020 Census to encourage response
Special Populations – Group Quarters and Service-Based Enumerations

We count people at their “usual residence,” which is where they live and sleep most of the time.

• Group Quarters (GQs) Enumeration
  • Places where people live or stay, in a group living arrangement, that are owned or managed by an entity or organization providing housing and/or services for the residents

• Service-Based Enumeration
  • Provides an opportunity for people without conventional housing or people experiencing homelessness to be included in the census by enumerating them at places where they receive services or at pre-identified outdoor locations.

• Enumeration at Transitory Locations
  • Highly mobile populations that do not have a usual home elsewhere (e.g. campgrounds, recreational vehicle parks, marinas, hotels and motels, racetracks, circuses, or carnivals).

• Federally Affiliated Count Overseas
  • Obtain counts by home state of U.S. military and federal civilian employees stationed overseas and their dependents living with them.

• Military Enumeration
  • Involves enumeration of people living in GQs (or barracks) on military installations or military vessels.
# Overview of Language Support

</table>
Yes, of course the Census Bureau will post daily self response rates!

- Check 2020census.gov beginning March 20, 2020
- Displayed on a map, down to the tract level
- Updated daily, 7 days/week until May 31
- June 1 – July 31, updated on business days only
Field Employment and Hiring

- We hope to recruit over 2.7 million individuals for peak operations
- Recruiting Kickoff was October 22
- Sending 5 million postcards/month
- Applicants stay in the pool for the entire 2020 Census
Local Waivers

The Census Bureau works with state and tribal governments to get census income excluded so that individuals who received these benefits can work as census takers without losing their benefits or eligibility status:

• Supplemental Nutrition Assistance Program (SNAP),
• Temporary Assistance for Needy Families (TANF),
• Medicaid or Children's Health Insurance Program (CHIP).
You Can Help!

Use our recruitment toolkit at 2020census/jobs

We increased pay rates at 73% of counties

Requirements *include*:
- Be a U.S. citizen (with one caveat)
- Have an email address and access to a computer
- Be at least 18
- Pass a background check
- Most jobs require a drivers license and access to a vehicle
Nonresponse Followup

Collect data from all households, including group and unique living arrangements

- Leverage automation to efficiently manage and route on-the-ground field staff, as well as manage case assignment and the number of contact attempts
- Field workers will use handheld devices for collecting the data
- Operations such as recruiting, training, and payroll will be automated – reducing the time and staff required for these activities
- Phased approach will ensure accurate and complete count
Statutory Confidentiality

• Title 13, Section 9 of the United State Code prohibits the Census Bureau from releasing identifiable data “furnished by any particular establishment or individual.”

• Census Bureau employees are sworn for life to safeguard respondents' information.

• Penalties for violating these protections can include fines of up to $250,000, and/or imprisonment for up to five years.
The Census Bureau’s Privacy Protections Over Time

Throughout its history, the Census Bureau has been at the forefront of the design and implementation of statistical methods to safeguard respondent data.

Over the decades, as we have increased the number and detail of the data products we release, so too have we improved the statistical techniques we use to protect those data.

- Stopped publishing small area data: 1930
- Whole-table suppression: 1970
- Data swapping: 1990
- Formal Privacy: 2020
The Growing Privacy Threat

More Data and Faster Computers!

In today’s digital age, there has been a proliferation of databases that could potentially be used to attempt to undermine the privacy protections of our statistical data products.

Similarly, today’s computers are able to perform complex, large-scale calculations with increasing ease.

These parallel trends represent new threats to our ability to safeguard respondents’ data.
Reconstructing the 2010 Census

The 2010 Census collected information on the age, sex, race, ethnicity, and relationship (to householder) status for ~309 Million individuals. (1.9 Billion confidential data points)

The 2010 Census data products released over 150 Billion statistics.

Internal Census Bureau research confirms that the confidential 2010 Census microdata can be accurately reconstructed from the publicly released tabulations.
The Census Bureau’s Decision – Differential Privacy

Advances in computing power and the availability of external data sources make database reconstruction and re-identification increasingly likely.

The Census Bureau recognized that its traditional disclosure avoidance methods are increasingly insufficient to counter these risks.

To meet its continuing obligations to safeguard respondent information, the Census Bureau has committed to modernizing its approach to privacy protections.
Privacy vs. Accuracy

Differential Privacy allows policymakers to precisely calibrate where on the privacy/accuracy spectrum the resulting data will be.
Establishing a Privacy-loss Budget

The only way to absolutely eliminate all risk of re-identification would be to never release any usable data.

Differential privacy allows you to quantify a precise level of “acceptable risk.”

This measure is called the “Privacy Budget” or “Epsilon.”

$\epsilon=0$ (perfect privacy) would result in completely useless data

$\epsilon=\infty$ (perfect accuracy) would result in releasing the data in fully identifiable form
Differential Privacy and the PL Data

• We released a prototype PL file in 2018 that you can find on our website, www.census.gov/rdo

• TODAY***** National Academy of Sciences, “Workshop on 2020 Census Data Products: Data Needs and Privacy Considerations”

• Accuracy will be additive from the block level

• We have not yet established the Epsilon for the 2020 Census:
  ➢ Epsilon for 2018 PL Demonstration Product was 0.25
  ➢ Epsilon for the 2010 Demonstration Product was 6 (4 for person tables, 2 for housing unit tables)
2020 Redistricting Data Program

Phase 1 – The Block Boundary Suggestion Project (BBSP)
Phase 2 – The Voting District Project (VTDP)
Phase 3 – Data Delivery
Phase 4 – Collection of the new plans

• 118th Congressional Plans

• New State Legislative District Plans

Phase 5 – The View From the States

• The evaluation of the 2020 Redistricting Data Program (RDP), the recommendations from the states, and the plan for the 2030 RDP

- Multiple geographies including census block
- Group quarters is total population only, no demographic breakdown
Group Quarters Assistance

On February 8, 2018, the Census Bureau published a Federal Register Notice on the Final 2020 Census Residence Criteria and Residence Situations. In that Notice, the Census Bureau stated our intention to continue counting prisoners at the correctional facility as we determined that is most consistent with the concept of usual residence, as established by the Census Act of 1790. However, the notice also stated:

The Census Bureau will offer a product to assist states that wish to reallocate their own prisoner population counts.

The Census Geocoding Tool:

https://www.census.gov/programs-surveys/decennial-census/about/rdo/summary-files/2020/GQAssistance_CensusGeocoder.html
Voting Rights Tabulations

- Citizen Voting Age Population by Race and Ethnicity
  - Annual Tabulation
  - Calculated using the American Community Survey 5-year estimates
  - Added Congressional and State Legislative Districts for 2018 and future releases
  - Typically released in the 1st week of February each year

- Section 203 Language Determinations
  - New determinations conducted every 5 years
  - Identifies counties or townships where language assistance is needed for voting
  - Calculated using the American Community Survey 5-year estimates
  - Last published in the Federal Register –12/5/2016, next publication estimated 12/2021
Voting Rights Data

Citizen Voting Age Population by Race and Ethnicity (CVAP)

- CVAP initially created every 10 years (after Census 2000 and the 2010 Census)
- CVAP now tabulated annually (since 2011)
- Tabulated using the American Community Survey 5-year estimates
- The CVAP file contains data aggregations (summarized racial and ethnic categories) based on OMB guidance of aggregation for civil rights enforcement.
- Added Congressional and State Legislative Districts for 2018 and future releases
- Typically released in the 1st week of February each year
Voting Rights Data

Key Takeaways

• The current Section 203 Language Determinations were published in the Federal Register on 12/5/2016.
• The estimated date for the next Section 203 Language Determinations is December of 2021.
• Census Voting Age Population (CVAP) data will not be included in the 2020 Census P.L. 94-171 Redistricting Data file.
• Census Voting Age Population (CVAP) data will be released by the U.S. Census Bureau by April 1, 2021.
Thank You!
