The NCSL Foundation for State Legislatures exists to enhance NCSL’s services to all legislatures.

The Foundation is sponsored by a distinguished group of leaders who represent the nation’s most prestigious and influential corporations, unions and organizations. None of this would be possible without the continued support and dedication of the Foundation Board of Directors and our Foundation sponsors. Your generous support allowed the Foundation to provide $1,180,000 for NCSL activities and $376,851 for Foundation programs. Awards to NCSL for fiscal year 2014 totaled $1,556,851.
The NCSL Foundation for State Legislatures is committed to the important work of strengthening state legislatures, counteracting cynicism and distrust of the legislative process and helping lawmakers confront and solve the critical issues of our time through a public-private dialogue.
DEAR FOUNDATION SPONSORS:

Your support of the NCSL Foundation has been invaluable to the continued work of NCSL to support state legislatures. Funds from the Foundation helped NCSL delve into the broad range of policy issues facing lawmakers and provided professional development opportunities to legislators and legislative staff. Without the continued support of Foundation sponsors, this important work would not be possible. Thank you.

Awards from the Foundation in fiscal year 2015 allowed NCSL to bolster activities and research initiatives in workforce development, international education standards, tracking of marijuana policies and community policing. Support for the work of the Center for Ethics in Government and the Women's Legislative Network continued as well. Your support helped expand programs and training for legislative leaders and continue NCSL’s efforts to strengthen state legislatures across the country.

Your generosity supported the expansion of NCSL online databases focused on key issues such as campaign finance, health care, injury prevention, prescription drugs, traffic safety, education, pensions, energy and environment, transportation and more. Support for virtual education opportunities allowed NCSL to provide 12 online webinars for legislators and staff on topics such as falling oil prices, federal efforts to fund surface transportation, EPA regulations, 2014 post-election results, and advice for new lawmakers. A detailed list of all of the awards your contributions supported are in the pages that follow.

Your generosity has made all of these programs and projects possible this year and we greatly appreciate your commitment to the NCSL mission of strengthening state legislatures. We sincerely thank you for your sponsorship and for directly helping make NCSL the premier bipartisan organization of the 50 states and territories.

Sincerely,

William T. Pound
NCSL Executive Director
DEAR FOUNDATION SPONSORS:

It’s exciting to lead a successful organization, and I am pleased to report that the NCSL Foundation for State Legislatures achieved its fundraising goal for another consecutive year. From the annual Legislative Summit in Minnesota to the Forum in Washington, D.C., the Foundation offered a number of opportunities to meet with legislators, legislative leaders and key legislative staff to network and learn from one another.

The Foundation hosted luncheons, receptions, happy hours and dinners with NCSL standing committee staff and executive committee members. We offered opportunities to attend meetings for chairs in economic development and commerce and for presiding officers in New York City and Washington, D.C. We hosted the biannual luncheon for sponsors featuring NCSL Executive Director Bill Pound and teamed up with the State Government Affairs Council to offer a preview of the 2015 Legislative Summit. NCSL and the Foundation look forward to offering more opportunities for state government affairs professionals to engage with our constituents in the coming year.

Thank you for helping us reach our ambitious fundraising goal of $2.3 million. The number of platinum sponsorships has remained steady while sponsorship at the gold and silver levels has surged. Overall sponsorship grew to 185 sponsors with 26 new sponsors joining the Foundation. Seven organizations upgraded their sponsorship levels, including four platinum upgrades. Your generosity allowed the Foundation to award more than $1.5 million to NCSL programs, including public-private partnerships on telehealth and unmanned aircraft systems.

I sincerely appreciate your continued support. As you look through this year’s annual report, I encourage you to find ways to participate at the highest possible level, and please give us feedback on how to improve our outreach efforts.

Thank you for your commitment to NCSL.

Pamela Althoff
Senator, Illinois
President, NCSL Foundation for State Legislatures, 2015

TOTAL SUPPORT TO NCSL ........................................ $1,556,851

Since 1984, the Foundation has transferred and awarded more than $19 million to NCSL.
LEADERS’ SERVICES
$250,000
By supporting NCSL’s efforts to engage and serve state legislative leaders, the Foundation for State Legislatures helps NCSL achieve its core mission of strengthening legislatures by providing the people who run them with opportunities to network, learn and hone their leadership talents.

It has been a very good year for NCSL’s leaders’ services programs because of the generous support from the Foundation. Since receiving the 2015 Foundation award, NCSL used the funding to put on two cornerstone conferences for legislative leaders and prepare for several other leaders events. The first was a successful symposium for legislative leaders in New York City in Dec. 2014, attended by more than 50 leaders. Leaders rated the conference a very impressive 4.4 on a 1-to-5 scale where 5 equaled excellent. Twenty-four of the Foundation’s platinum-level partners also participated in the symposium. The meeting was highlighted with a presentation on leadership by Pulitzer Prize-winning historian Jon Meacham, who later was a top presenter at the NCSL Legislative Summit in Seattle.

In June 2015, NCSL convened a Symposium for Legislative Leaders in Washington, D.C. Nearly 50 leaders attended and gave the program high marks. The symposium was anchored by meetings with key congressional leaders at the U.S. Capitol as well as meetings at the White House complex with top administration officials, including then-U.S. Secretary of Education Arne Duncan. Many Foundation sponsors were represented at the symposium and heard political analysis from former RNC Chair Michael Steele and Cook Political Report National Editor Amy Walter. The group also heard from Steve Wiley, director of The Lincoln Leadership Institute in Gettysburg, Penn.

NEW MEMBER OUTREACH
$200,000
NCSL conducted a member outreach program following the 2014 election to introduce new members to the conference, inform them of the products and benefits of membership, and congratulate returning members.

The outreach program includes printed materials, personal letters, dedicated information on the website, videos, emails, a social media campaign, advertising in State Legislatures magazine and more.

“NCSL provides the forum for leaders to speak to each other, to learn from each other and also take in the private sector perspective on how we can interact and help them develop in their roles.”

– Alden Schacher, Apollo Education Group, Inc.
WEB DEVELOPMENT
$165,000

The NCSL Foundation continues to provide crucial funding to a number of technology-driven projects.

The funding supports the ongoing operation and improvement of NCSL’s website, which is the primary tool for providing information and services to all of the organization’s stakeholders. It also supports related efforts as detailed below.

**Initiatives in the 2015 fiscal year included:**

- **Personify upgrade:** Personify, as the backbone of NCSL, was upgraded and went live on Feb. 12, 2015. With the changes, a single sign on authentication system has been implemented where website login credentials and data are synced with the back office Personify application.

- **NCSL mobile app:** Our first year-round app is now available for download for iPhone and Android users. Efforts to build this started shortly after the Personify upgrade, and the app was ready for the Summit attendees. In addition to acting as a valuable tool for NCSL’s meetings, the app provides other powerful features such as news and profile information.

- **My Account preference center:** Since its deployment, we’ve seen several hundred website users use their My Account page to set their communication preferences with NCSL. Upon surveying member priorities, and enabled by the Personify upgrade, development has built a Committees (Membership) section as well as Purchase History, which went live before the Legislative Summit in Seattle.
★ E-commerce: The e-commerce site also went through the new authentication update stemming from the Personify upgrade. The ability to search was added and online meeting registration saw a facelift while capabilities around different product types (digital, print, etc.) improved.

★ Self-serve kiosks: For the first time, NCSL deployed stations to the Summit that enabled attendees to print their own badges onsite. While we still have the traditional registration desks to help those who might need assistance with payments and changes, preregistered and prepaid attendees were able to walk up to a unit and pull up their badges via a scanner or search, similar to the stations at airline check in.

★ Lyris upgrade: Lyris has been implemented as our sole list manager for email communication, and other tools have been removed from the mix to ensure consistent communications. Significant effort has been spent to train key personnel in producing relevant content and we’ve started to look at analytics surrounding open and click rates to gauge member interest.

★ Webinar/Multimedia interface: The requested improvements on the webinar library were completed and allow searching and a highly intuitive graphic interface. All previous webinars have been categorized and made available to this interface.

★ Enhanced site search: We have made significant improvements in search engine optimization (SEO), and we continuously monitor site statistics to reach Internet users in a rapid and accurate fashion.

★ Database conversions: We converted several StateNet databases on our website and are working with one of the most complicated applications (StateConnect) to transform it for better user interaction.

★ Move to hosting: NCSL’s main website and subsites were moved to Personify’s hosting facilities from Denver headquarters at the beginning of the fiscal year. This allowed the IT team to focus on new projects rather than maintaining equipment and connections while making the Personify upgrades.

★ Improved interactive map utilities: We have expanded the discussion regarding maps to infographics in general. We’ve formed a focus group that has been evaluating tools that easily render data in a visually absorbable summary format. We’ve also increased SmartDraw licenses in the organization.
LEGISLATIVE STRENGTHENING
$145,000

The Foundation supports the work of NCSL’s director of Legislative Studies, a new title and position at NCSL.

This office currently is engaged in a broad range of activities designed to strengthen the legislative institution, its members and employees, and to update and expand NCSL’s library of information about state legislative operations and management. Here is an outline of recent and current activities:

- Minnesota Staff Compensation Study: Conducted a market analysis to determine the market competitiveness of the current Minnesota Senate staff pay plan. This work required collection and analysis of hundreds of salary data points in the Minneapolis/St. Paul labor market and matching to relevant titles at the Legislature.

- Analysis of Staff Management and Structure: Kentucky Legislative Research Commission: This multiyear study engaged four NCSL staff in a detailed examination of staff operations at the Kentucky General Assembly.

- Legislator Demographics 2015: With additional support from The Pew Charitable Trusts, NCSL created a comprehensive, 50-state demographic database of current state legislators. The data are displayed on the NCSL website in a 50-state interactive map and are the subject of several publications.

- Legislative Staff Training: Several events are in progress, including the 2015 Legislative Staff Management Institute (July 18-25); California Assembly staff training (July 29); Arizona Majority Research Staff Myers-Briggs workshop (Sept. 15); and NCSL’s National Seminar for Human Resource Management in State Legislatures (Nov. 1-4).
DATABASE AND RESEARCH DEVELOPMENT
$125,000
This award allowed NCSL to continue and expand the development of online databases on key issues such as campaign finance, health care, injury prevention, prescription drugs, traffic safety, education, pensions, energy and environment, ethics, transportation and more.

The databases now provide NCSL constituents with links to the full text of bills. For NCSL staff, having access to the full text of state and federal legislation enhances research resources overall in responding to information requests, preparing articles, briefs and publications, and developing pending and enacted legislation summaries.

KNOWWHO DATABASE
$50,000
NCSL changed its integration with KnowWho after the move to hosting and continued to utilize the data to serve NCSL’s constituents better.

After the elections, new members were greeted and recognized through our ability to work with KnowWho’s data.

LEGISLATIVE STAFF MANAGEMENT INSTITUTE
$50,000
The Foundation supports the operation of the annual Legislative Staff Management Institute.

Forty-three staff from 23 states participated in the 2015 LSMI on July 18-25. This attendance level established a new record for the number of participants at the institute. This support, combined with feedback about the program from past attendees, makes it clear that the LSMI has become the nation’s most highly regarded professional development experience for legislative staff. The Foundation’s assistance enabled NCSL to provide scholarships to all participants in this executive management program and leverage other corporate contributions. The institute is held in Sacramento, Calif., in cooperation with the Center for California Studies, Sacramento State University and the University of Southern California, School of Policy, Planning and Development.

CHALLENGE GRANTS
$100,000
This award supports the entrepreneurial spirit of NCSL and challenges staff to develop innovative ways to expand services to support legislators and legislative staff.

Strong consideration was given to proposals that not only expand services but also generate revenue. Accepted proposals included support for the Jobs Summit, a Medicaid fraud and abuse project, and study on e-cigarette legislation in the states.
INTERNATIONAL PROGRAMS
$30,000

While in Reno, the delegation attended the NCSL Executive Committee meeting, visited the state capitol in Carson City, met with the Desert Research Institute’s Stead Airport officials regarding unmanned autonomous systems activities, University of Nevada–Reno representatives, and the Tahoe Regional Planning Agency. The delegation also met with NCSL’s Task Force on International Relations to discuss workforce development initiatives in the states and compare and contrast those initiatives with the long-standing apprenticeship program in Germany. They also participated in a discussion on immigration issues with the NCSL Task Force on Immigration and the States.

While in Sacramento, the delegation visited the state capitol and held meetings with representatives and staff. In San Francisco, the delegation participated in a German flag-raising ceremony at City Hall on the country’s National Day, met with the mayor’s office, and had meetings and a tour of University of California-Berkeley.

The purpose of the study tour was to encourage an exchange of best practices and expertise between German legislators and legislative staff and U.S. state legislators and legislative staff on a variety of policy matters and institutional issues.

E-LEARNING
$25,000

The Foundation grant for e-learning has funded 12 webinars during the fiscal year on subjects including the effect of falling oil prices, federal efforts to fund surface transportation, new EPA regulations and the states, and post-election webinars on the election and ballot results, hot issues, and advice for new members.

In addition, the grant funded the creation and production of a 90-second Ydraw video introducing staff to the benefits of NCSL. The webinars enhance NCSL’s efforts to reach out to legislators and staff throughout the country by offering professional development opportunities and valuable information on critical topics at the click of a mouse. In all, the webinars supported through the Foundation grant have reached more than 1,500 legislators and staff across the country.
HEALTH INNOVATIONS TASK FORCE
$15,000

Two of the most important and challenging health care issues for state policymakers are improving patient care and, at the same time, controlling escalating costs.

As state decision-makers create and shape health system policies, they are leveraging the states’ market power as both the purchasers of health care and stewards of quality. They also integrate new technologies and methods in ways that improves their citizens’ health while balancing the challenges and opportunities of federal health reform efforts.

With the funds from the NCSL Foundation, NCSL’s Task Force on Innovations in State Health Systems explored the issues and opportunities faced by state policymakers as they reform their own health system. The task force also provided NCSL with guidance as it develops health policy resources for legislators and legislative staff.

★ Supporting NCSL’s role to promote federalism.
★ Elevating participation of legislative leaders, legislators and legislative staff at the NCSL Legislative Summit and Capitol Forum.
★ Advising on skill-based and issue expertise professional development for legislators and staff.
★ Collaborating on ways to counteract cynicism and distrust of the legislative process.

TELEHEALTH PUBLIC-PRIVATE PARTNERSHIP
$10,000

Telehealth technologies have the potential to revolutionize the way healthcare is delivered, which has led to growing interest among state legislatures, state medical boards, medical professionals and the media.

The partnership held its first meeting on reimbursement at the NCSL Forum as a post-conference on Dec. 12, 2014. Partners met again to discuss licensure during an invitational meeting June 1-2, 2015, in Denver. Partners include AARP, American Association of Nurse Practitioners, American Hospital Association, American Medical Association, Anthem, BlueCross BlueShield Association, HP and Philips. The group met again as a pre-conference to the Legislative Summit on Aug. 3 in Seattle. The final report and meeting took place at the NCSL Capitol Forum in December.

TRUST FOR REPRESENTATIVE DEMOCRACY
$15,000

The NCSL Foundation grant supported the expanded efforts of the Trust for Representative Democracy.

This included identification of trustees from the states and territories whose role it will be to advise on:
{ 2015 EVENTS & ACTIVITIES: JULY 1, 2014-JUNE 30, 2015 }
