§3807. Regional school leadership academies

A regional school leadership academy is a professional development consortium that combines state and local programs and resources, including the preparation, licensure, certification, professional development and training for educational leadership, into a coherent system that can significantly improve the recruitment and preparation of prospective candidates for school principals and other school leadership positions, as well as the induction, mentoring and retention of principals and school leaders during the first 2 years of employment in their school leadership positions. The mission of an academy may be to enhance the quality of the preservice and in-service staff training programs for school principals and other school leadership positions, to improve the distribution, supply and quality of school leadership personnel in underserved school administrative units in the State and to develop appropriate professional development pathways at participating schools in the academy. To fulfill its mission, the academy may work in coordination with educational leadership mentors and coaches, with high-performing educational leaders and with educator preparation programs and statewide education associations.
