RE: The Unfunded Mandates Information and Transparency Act (S. 189/H.R. 50)

Dear Senators Lankford and Fischer and Representatives Foxx and Sanchez:

On behalf of the Big 7, a coalition of national organizations that represent state and local officials, we applaud your efforts to make improvements to the Unfunded Mandates Reform Act (UMRA) of 1995. Monitoring federal regulations and planning for unfunded mandates continues to be one of the most pressing issues for state and local leaders. In particular, we support strengthening the required analysis of pending legislation and your call for a strong regulatory look back process. This additional information is critical for improving both the legislative and regulatory processes.

As you know, UMRA was designed to limit the imposition of unfunded federal mandates on state, local, and tribal governments by requiring the Congressional Budget Office and regulatory agencies to provide a qualitative and quantitative assessment of the anticipated costs of legislation and certain regulations, respectively. As UMRA begins its third decade, its goal to “…curb the practice of imposing unfunded Federal mandates on State and local governments,” is even more important.

A report by the White House Office of Management and Budget stated that federal regulations and unfunded mandates cost states, cities and the general public between $44 and $62 billion each year. With many states and local governments continuing to face difficult economic conditions, the federal government should avoid imposing any new unfunded mandates. Moreover, federal regulatory agencies should work more closely with state and local governments and other stakeholders during the rule making process to gather input and identify practical solutions.

We commend you for your leadership in advocating the enactment of this legislation, and we look forward to working with you and your staff to ensure its passage.
Sincerely,
