

Illinois

5.0833 Minutes of Fame

or
GONG!

Recently Completed Projects:

- Replaced data center cooling units.
- Expanded UPS and replaced batteries.
- Replaced outlying Cisco switches with Foundry equipment.
- Migrated to Shavlik NetChk patch management system.
- Replaced McAfee SMTP WebShield with Ironport SMTP gateway mail and spam appliance.
- Added Dell OpenManage client to desktops.
- Installed audio feeds from House committee rooms.

Current Projects:

- Upgrading the Document Repositories - replacing SharePoint with SQL Server, with the XML stored directly in SQL Server.
- Upgrading 3B2 from version 7.5 to 9.0.
- Rewriting the Calendar application in .Net.
- Rewriting the Laptop System used on the chamber laptops in .Net.
- Redesigning the General Assembly web site.

Current Projects:

- Migrating from a flat "10" network to a subnetted "172" network with VLANs.
- Upgrading the House and Senate Document Center.
- Upgrading the server KVM setup.
- Setting up a test environment that mirrors the House and Senate voting systems including hardware and software.
- Expanding our training offerings, particularly Office components.

Future Projects:

- Redesign the Journal application.
- Redesign the Appropriation application.
- Upgrade XML Editor - XMetaL.
- Develop a publishing broker.
- Redesign all applications using .Net.

This Concludes
the
5 Minutes of Fame
for
Illinois
and the
Legislative Information
System

WAIT!!!

THERE'S STILL TIME FOR

5 Seconds of FOAM!
