NC Department of Health and Human Services

Healthy Opportunities

E. Benjamin Money, Jr., MPH
Deputy Secretary for Health Services
NC Department of Health and Human Services
North Carolina is not as healthy as it could be

North Carolina ranks 33rd* in overall state health outcomes

- 35% of North Carolina women have experienced intimate partner violence
- 10.6% of adults are uninsured
- 29% of low-income adults went without care due to cost
- More than 1.2 million North Carolinians cannot find affordable housing
- 21% of children do not have consistent access to food
- 19% of children ages 0-8 had 2 or more Adverse Childhood Experiences
- Black babies die at a rate 2.5 times higher than white babies

*America’s Health Rankings

Health and Social Care Spending as a Percent of GDP, 2016 or Latest Available Year

Source: OECD Social Expenditures database (SOEX), OECD Health data 2018.

Data: Expenditures reflect the latest (2013-2016) available data for combined public and private spending. To avoid double counting, social care expenditures reflect total social spending in SOEX excluding health spending included in SOEX, while health care expenditures reflect total health spending in OECD Health Data excluding long-term care (social), health promotion with multi-sectoral approach, and gross fixed capital formation.
Mismatch: We are Buying Healthcare not “Health”

- **Healthcare Spending**
  - Direct Medical Care: 90%
  - Other: 10%

- **Drivers of Health**
  - Behavior: 40%
  - Genetics: 30%
  - Social: 15%
  - Environment: 5%
  - Healthcare: 10%

The greatest opportunity to improve health lies in addressing a person’s **unmet essential needs**.

DHHS Vision for Addressing Social Determinants of Health

We envision a North Carolina that optimizes health and well-being for all people by effectively stewarding resources that bridge our communities and our healthcare system.
North Carolina Medicaid Transformation

• Transforming from state run Medicaid program to a managed care administered system. Statewide launch – February 2020

• Using best practices from other states and building on the existing infrastructure in NC

1. Whole Person Focused
   • Integrate Physical and Behavioral Health
   • Focus on unmet social needs

2. Driving towards Value
   • Advanced Medical Home Plan
   • Move to alternative payment models
   • Support Clinicians through the transformation
Medicaid Transformation

Address 4 Priority Domains:
- Housing
- Food
- Transportation
- Interpersonal Violence

---

**Health Screening**

We believe everyone should have the opportunity for health. Some things like not having enough food or reliable transportation or a safe place to live can make it hard to be healthy. Please answer the following questions to help us better understand you and your current situation. We may not be able to find resources for all of your needs, but we will try and help as much as we can.

NCCARE360

NCCARE360 is the first statewide coordinated network that unites healthcare and human services organizations with a shared technology platform allowing for a coordinated, community-oriented, person-centered approach to delivering care in North Carolina.

Hands on, in-person technical assistance and training to on-board providers and community organizations.
NCCARE360

NCCARE360 is customizable to meet the needs and workflow of each county

- **No mandate**
  - Most Organizations and Counties are not mandated to use NCCARE360
  - Value add to assist individuals and families in community

- **Flexibility in how organization implements NCCARE360 into workflows**
  - Counties do not have to roll out NCCARE360 across all lines of business at once

- **NCCARE360 can be customized to meet needs and workflows**
  - Organization can be referral receivers and/or senders

- **Privacy and Security is top priority**
  - NCCARE360 is compliant with HIPAA, FERPA, FIPs
  - Developing customization to meet needs of more sensitive areas of organization’s business (e.g. IPV)
On-boarding

Pre-Launch Implementation

Weeks 1-2
- Kick-off & Set Timeline
- Determine Network Design & Client Entry Points
- Set Steering Committee
- Determine Network KPIs

Weeks 3-4
- Identify Launch Partners
- Determine Service Types
- Provider Interest Survey
- Network Name
- Provider Discussions/Information-Gathering

Weeks 5-9
- Finalize Network Roles & Workflows
- Agreements Review
- Network Name
- Strategy Session(s) with Community Partners

Weeks 10-11
- Training Registration
- Software Configuration
- Set Network Standards
- Workflow & User Policy Review

Week 12
- Provider Training
- Admin/CC Training
- Execute Marketing Plan
- Provider List on Website

Launch, Network Management & Growth Strategy

Week 13
- User Logins Issued

Onward
- Network Launch
- Ongoing Software Support & Training
- Ongoing Provider Engagement
- Ongoing Network Data Monitoring

Additional Activities
- Review & Finalize Network Assessments and Outcomes
- Set Marketing Plan
- Provider Registration & Profile Configuration

Key:
- Network Design
- Network Configuration
- Partner Planning
- Community Engagement
- Provider Onboarding & Training (UU)

Unrisk Us - Proprietary & Confidential
Data Repository

- Multiple Directories
- Multiple Vendors
- Proprietary Formats
- Non-Standardized content
- Unique ways to transmit data
- Hard to keep updated

- No Universally accepted schema
- No authoritative "aggregator"
- Industry incentivized to disaggregate
- No easy way for users to consume data
- Current way: technically complex & costly
Community Resources in One Place

Out of Network
Organizations that have not been onboarded to the platform

- Searchable and Identifiable as part of Resource Directory/Data Repository
- Not part of the NCCARE360 platform yet
- Do not report outcomes

In Coordinated Network
Organizations onboarded to the platform – Coordinated Network

- Agree to NCCARE360 platform requirements
- Have completed training and on-boarding
- Responsibility to report outcomes
Privacy & Security

Compliant with Health Insurance Portability and Accountability Act (HIPAA) & Personally Identifiable Information (PII) standards

Compliant with Security & Data Storage Standards and Breach & Enforcement Rules

Protected information (e.g. outcomes for Mental Health or Substance Use cases) is restricted from view based on users’ viewing permissions.

Informed consent is requested by the system ONCE, before the first referral is made. Clients consent to have their information shared in order to receive services from network partners.
A coordinated network connects providers (such as health care providers, insurers, or community organizations) through a shared technology platform to:

- Communicate in real-time
- Make electronic referrals
- Securely share client information
- Track outcomes together
Coordination Platform at Work
Improving coordination efficiency and accuracy

Traditional Referral

Client → Healthcare Provider → Housing Provider

Through NCCARE360

Client → Healthcare Provider → Housing Provider

✗ Service provider cannot always exchange PII or PHI via a secure method
✗ Limited prescreening for eligibility, capacity, or geography
✗ Onus is usually on the client to reach the organization to which he/she was referred
✗ Service providers have limited insight or feedback loop
✗ Client data is siloed & transactional data is not tracked

✓ All information is stored and transferred on HIPAA compliant platform
✓ Client is matched with the provider for which he/she qualifies
✓ Client’s information is captured once and shared on his/her behalf
✓ Service providers have insight into the entire client journey
✓ Longitudinal data is tracked to allow for informed decision making by community care teams
No Wrong Door Approach

State Coverage
Began rollout January 2019, statewide by December 2020

NCCARE360 will be fully statewide by December 2020
Medicaid Transformation Vision

“To improve the health of North Carolinians through an innovative, whole-person centered, and well-coordinated system of care which addresses both medical and non-medical drivers of health.”
Addressing Social Needs Through Care Management

The care management model requires PHPs and care managers to take steps to address beneficiaries’ unmet resource needs.

Addressing Unmet Resource Needs through Care Management

• Care management model drives a focus on addressing beneficiaries’ unmet resources needs.

• PHPs identify high-needs individuals (including those with significant social needs) and often delegate the provision of care management to qualified local entities—e.g., Tier 3 Advanced Medical Homes and Local Health Departments.

• Care managers and other members of the care team will play a significant role in addressing the non-medical drivers of health.
  • Identification through use of State SDOH screening, analysis of data, or referral.
  • Comprehensive Assessment
  • Accountable for addressing needs, including by:
    • Providing in-person assistance with select applications (e.g. SNAP and WIC)
    • Connecting beneficiaries to community resources leveraging NCCARE360
    • Having housing specialist
    • Providing access to medical-legal partnerships.
Healthy Opportunities & Value-Based Payment Strategies

VBP Overview

- Value-based payments give providers flexibility to decide how best to use payments, including by paying for health-related social supports that may be more cost-effective than traditional medical care.
- The State’s VBP strategy will encourage PHPs and other providers to consider how they can incorporate and promote healthy opportunities into their VBP contracts.
Voluntary PHP Contributions to Health-Related Resources

PHPs are encouraged to make contributions to health-related resources that help to address members’ and communities’ unmet health-related needs.

Contributions to Health-Related Resources

§ PHPs are encouraged to contribute to health-related resources that improve health outcomes and cost-effective delivery of care in the communities they serve.

§ PHPs that voluntarily contribute to health-related resources may count the contributions in the numerator of their MLR.

§ A PHP that voluntarily contributes at least one-tenth percent (0.1%) of its annual capitation revenue in a region to health-related resources may be awarded a preference in auto-assignment to promote enrollment in each region in which the PHP contributes.

The NC “Hot Spot” Map uses geographic information system (GIS) technology to map resource needs and other indicators across the state and can strategically guide contributions to health-related resources.

Providers may wish to give input to PHPs on how to direct their contributions in their communities.
What Are the Healthy Opportunities Pilots?

The federal government authorized up to $650 million in state and federal Medicaid funding to test evidence-based, non-medical interventions designed to improve health outcomes and reduce healthcare costs for a subset of Medicaid enrollees.

Pilot funds will be used to:

• Cover the cost of federally-approved Pilot services
  • *DHHS is developing a fee schedule to reimburse entities that deliver these non-clinical services*
• Support capacity building to establish “Lead Pilot Entities” that will develop and manage a network of human service organizations (HSOs), and strengthen the ability of HSOs to deliver Pilot services
  • *DHHS will procure Lead Pilot Entities with deep roots in their community that can facilitate collaboration across the healthcare and human service providers through building partnerships.*

NC’s priority “Healthy Opportunities” domains

- Housing
- Food
- Transportation
- Interpersonal Violence
Who Qualifies for Pilot Services?

To qualify for pilot services, Medicaid managed care enrollees must have:

At least one Needs-Based Criteria:
- Physical/behavioral health condition criteria vary by population:
  - Adults (e.g., 2 or more chronic conditions)
  - Pregnant Women (e.g., multifetal gestation)
  - Children, ages 0-3 (e.g., Neonatal intensive care unit graduate)
  - Children 0-21 (e.g., Experiencing three or more categories of adverse childhood experiences)

At least one Social Risk Factor:
- Homeless and/or housing insecure
- Food insecure
- Transportation insecure
- At risk of, witnessing or experiencing interpersonal violence
What Services Can Enrollees Receive Through the Pilots?

North Carolina’s 1115 waiver specifies services that can be covered by the Pilot.

**Housing**
- Tenancy support and sustaining services
- Housing quality and safety improvements
- One-time securing house payments (e.g., first month’s rent and security deposit)

**Food**
- Linkages to community-based food services (e.g., SNAP/WIC application support)
- Nutrition and cooking coaching/counseling
- Healthy food boxes
- Medically tailored meal delivery

**Transportation**
- Linkages to existing public transit
- Payment for transit to support access to pilot services, including:
  - Public transit
  - Taxis, in areas with limited public transit infrastructure

**Interpersonal Violence (IPV)**
- Linkages to legal services for IPV related issues
- Evidence-based parenting support programs
- Evidence-based home visiting services
What Entities Are Involved in the Pilots?

Sample Regional Pilot

- Pilot Enrollee
  - North Carolina
    - Prepaid Health Plan
      - AMH/Care Managers
    - Prepaid Health Plan
      - AMH/Care Managers
    - Prepaid Health Plan
      - AMH/Care Managers
  - Lead Pilot Entity

Pilot Entities: Overview

- Key pilot entities include:
  - Healthy Opportunities Pilot Enrollees
  - North Carolina DHHS
  - Prepaid Health Plans (PHPs)
  - Care Managers (*predominantly located at Tier 3 AMHs and LHDs*)
  - Lead Pilot Entities (LPEs)
  - Human Service Organizations (HSOs)

Who Will Be Able to Apply to Become a Lead Pilot Entity?

Lead Pilot Entities should be deeply rooted in their communities and able to build partnerships with HSOs to create a smooth experience for Pilot enrollees.

Lead Pilot Entity Applicants

- DHHS anticipates that Lead Pilot Entities will be existing community-based social service or health organizations, or a partnership such organizations.
- Entities that are likely best positioned for the Lead Pilot Entity Role include (but are not limited to):
  - Community-based organizations
  - County-based public agencies
  - Local Health Departments
  - Social services or multiservice agencies
  - Community health centers
  - Community health foundations, or associations
  - A partnership of agencies who come together to form a Lead Pilot Entity
- LPEs may partner with health systems, but DHHS anticipates they will not be led by them.
- PHPs and Local Management Entity-Managed Care Organizations (LME-MCOs) may not serve as Lead Pilot Entities.

Lead Pilot Entities should demonstrate meaningful partnerships with a range of community-based organizations and other key Pilot entities in the communities they serve.
Accountability and Evaluation

Strategies to ensure accountability for federal and state Pilot funding and to learn how to deliver effective non-medical interventions across a population.

Tools for Accountability and Learning

Rigorous Evaluation:

- **Rapid Cycle Assessments**: To gain “real-time” insights on whether Pilots are operating as intended, if services are having their intended effects, and what mid-course adjustments need to be made to improve delivery of effective services.

- **Summative Evaluation**: To assess the global impact of the Pilots, learn which interventions are effective for specific populations, and plan for incorporation into the Medicaid program.

**Value-Based Payments**: Payments for Pilot services will increasingly be linked to performance against health outcomes and healthcare cost benchmarks.

**Program Integrity**: State oversight to ensure funds are spent as intended by Pilot entities.
Workforce

- Develop, train and strengthen workforce needed to support SDOH initiatives/Trauma Informed Care
- Community health workers, case managers, etc.
- Released report on Community Health Workers, May 2018
  - Community Health Workers in North Carolina: Creating an Infrastructure for Sustainability
Process/Time Line

- **Oct 2018:** Healthy Opportunities Approved as part of 1115 Demonstration Waiver Approval
- **Feb 2019:** White Paper on Pilot Design/Request for Information on service definitions and cost elements
- **Spring 2019:** Multiple forums for further input and market research
- **July 2019**
  - Further guidance on Lead Pilot Entity (LPE)/Non-binding Statement of Interest (17 received)
  - Refined Pilot Service Definitions, Methodology for fee schedule for public comment
- **August 2019:** CMS Approved Evaluation Plan – Rapid Cycle and Summative
- **September 1:** Revised Service Definitions and Fee schedule submitted to CMS
- **Fall 2019:** Request for Proposals (RFP) to determine LPEs/Pilot Regions
- **February 1, 2020:** Go-Live Statewide Managed Care
- **Early 2020:** Award LPEs/Pilot Regions
- **Most of 2020:** Capacity building for LPEs and regions
- **February 1, 2021:** Expected start date of Pilot service delivery
- **Early 2021- October 2024:** Service Delivery
