FURTHER CDC RESOURCES

• **NCHHSTP Atlas Plus**
  
  CDC’s National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention (NCHHSTP) has added updated national, state, and county-level HIV, TB, and viral hepatitis data to NCHHSTP AtlasPlus, including new HIV data for the Phase I counties for the Ending the HIV Epidemic: A Plan for America (EHE).

• **Syringe Services Programs resources**
  
  Syringe services programs (SSPs) are community-based prevention programs that can provide a range of services, including linkage to substance use disorder treatment; access to and disposal of sterile syringes and injection equipment; and vaccination, testing, and linkage to care and treatment for infectious diseases.

• **Syringe Services Programs Technical Package**
  
  This technical package provides evidence of the effectiveness of strategies and approaches for supporting successful planning, design, implementation, and sustainability of syringe services programs (SSPs).
