

# Tennessee General Assembly Calendar Program

Kerry Bryan  
Software Developer &  
Highly Unofficial Keeper of Institutional  
Knowledge

## **Welcome to Nashville!**

My time today is allotted to our Calendar program. First, a few facts about Nashville and Tennessee.

Nashville was established in 1779 as Fort Nashborough. Five years later, the city of Nashville was created by an act of the North Carolina legislature.

Not terribly long after that, North Carolina ceded the land from the Allegheny Mountains to the Mississippi River to the federal government and in 1796, that territory was admitted to the United States as the 16<sup>th</sup> state, Tennessee.

Without further ado, the Calendar program..

The House and the Senate both use this program to generate their calendars for committees and the floor. We have two types of committee calendars – consent and regular.

The House has subcommittees while the Senate usually doesn't; consequently, the House also uses this program to assign bills from the main committee down to the subcommittee.

When a calendar is approved, the program posts an action against each bill on a calendar to show that the bill is being heard at the designated committee meeting.

Finance and Calendar (both chambers) are allowed to have multiple calendars of a type in a given day while the other committees are restricted to one of each type within a day.

## Committee Status

| Committee | Description                                 | Date      | Clerk Status | Calendar ID |
|-----------|---|-----------|--------------|-------------|
| 800000    | Calendar & Rules Committee                  | 4/5/2018  | Completed    | 4165        |
| 800000    | Calendar & Rules Committee                  | 4/10/2018 | Completed    | 4166        |
| 801000    | HOUSE REGULAR CALENDAR                      | 4/5/2018  | Not Approved | 4343        |
| 801000    | HOUSE MESSAGE CALENDAR                      | 4/5/2018  | Not Approved | 4345        |
| 801000    | HOUSE CONSENT CALENDAR                      | 4/5/2018  | Not Approved | 4363        |

Nashville was sometimes called the “Athens of the South” due to the number of colleges and universities here.

On the other side of West End, you will find Centennial Park. It was the site of Tennessee’s Centennial Exposition back in 1897.

The entire park was filled with large structures to highlight and honor Tennessee cities, industries and the like.

Nashville’s contribution was a full-scale replica of the Parthenon in Athens, Greece. Inside, you will find a 42 foot tall statue of Athena.

P.S. Our version isn’t as old but it is still standing!

Our calendars are rendered on paper and in an electronic format.

The electronic calendar feeds several applications downstream.

- Bill In Well
- Bill Tracking
- Well applications during session
- Dashboard

Our Calendar program started out life in the early 90's as a VB 3.0 application hooked to the database via an Access DB on the desktop.

It currently is a Visual Studio VB.Net app hitting a MS SQL Server. The app is mostly VB.Net but does utilize some Component One controls.

Calendar also uses Word 2010 to build the electronic calendar documents for print and email to interested parties.
