

What's Next with States and the Affordable Care Act?

Wednesday, August 5, 9:45 a.m. – 11:15 a.m.

Washington State Convention Center, Room WC 602-604

The Supreme Court has spoken and decisions again rest with the states. Find out how a growing number are seeking flexibility and experimenting in several areas by changing, limiting or expanding Medicaid, by including market-based health insurance approaches and other alternatives. Learn what's happening next with health exchanges; and how states may seek waivers to take a different approach in addressing coverage, cost and quality. Leaders and members in the audience will help make this a lively, interactive discussion.
